

## **Traveling to the UK – you will need to do the following prior to flying into the UK.**

- All travelers traveling through or visiting the UK should apply for the UK ETA.
- Attached are photos of what the App looks like in the App store and the other is what the app looks like when you open it.
- Download the app in either the App Store (Apple) or Google Play
  - You will need your passport, an email address & a form of payment.
    - The cost is 16Euro or \$18.22 USD – Make sure to use the official site. Some folks say they paid more.
  - Each traveler must apply separately before arriving in the UK.
  - It takes about 10 – 15 minutes to complete the application form using your phone.
  - You will be asked to take a photo of your passport
  - Attempt to scan your passport for a chip, but if unable to locate the chip, you will be asked to review the passport information they will provide you from the photo. ( You may need to take the case off your phone to pick up the chip.)
  - You will be asked 3 questions.
  - You will need to take a photo of yourself.
  - You will then be directed to supply payment with either a debit, credit card or Apple or Google Pay.
  - It may take up to 3 days to receive an email confirmation.
  - The confirmation will be linked to your passport. I made a copy for my records.
  - The UK ETA is good for 2 years or with a new passport you must reapply.
